

About US

Oguzbey is a leading manufacturer of Aluminium Furniture in Turkey. It was established in 1998 in Istanbul. After a serious investigation throughout European and Far East markets, we have come to conclusion that Aluminium has great advantages in that it does not rust, is rough and lightweight.

Our wide range includes chair, tables and office groups. Oguzbey furniture will provide that extraordinarily beautiful look for indoor, hotels, restaurants, cafes or any outdoor areas. Oguzbey has proved itself in both domestic and foreign markets and after continuous investments in equipment and specialised personal reached a capacity 700 units per day.

As Oguzbey, to make you feel comfortable and happy is our best goal.
